The business case for digital transformation

THE PROBLEM

Some challenges your businesses may face

The world, people and business are changing
You need to adapt to stay relevant

Meeting customer expectations
You need a skilled workforce to do that

Futureproofing the business
You need your business to succeed and remain competitive

Employee engagement and retention
You need to make sure your employee training adds value to them and your business

Burden of administration and reporting
You need to meet business and legislative requirements

THE SOLUTION

Sounds like you have quite a lot on your plate, doesn't it?

- Customise your training solutions within your budget
- Leverage the power of technology to reach all your employees on any device, anywhere
- Make training easily accessible, flexible and mobile
- Make administration and reporting a breeze
- Keep your workforce engaged
- Stay ahead with world-class HR processes and requirements

THE OUTCOME

Enjoy these benefits

Increased bottom line

Gain a competitive edge

Retain the best talent

If you're looking for a Learning Management System, you've found out that according to top analysts DigiSolve LMS is the #1 LMS out there.

But you're a company with hundreds or potentially thousands of employees, you realised that implementing DigiSolve LMS can be quite an effort: licenses, implementation, training, configuration, e-learning content, training administrators and more. With DigiSolve LMS, you can still have the #1 LMS out there, but it's going to be so much easier, jam packed with extra services and more cost effective.

DigiSolve LMS

Powered by
SAP SuccessFactors 

Mobile Ready

DigiSolve LMS includes free SuccessFactors™ apps for iPhone, iPad and Android devices.

Safe

DigiSolve LMS is a cloud solution based on Microsoft™ Azure™ infrastructure, adhering to the highest International standards.
