

# iOCO Analytics Strategy

Successful Analytics is a carefully orchestrated mix of disciplines, designed to challenge the status quo.

## ENGAGEMENT DETAILS

Fixed price engagement  
80 work hours, spanning over 2-4 weeks,  
depending on user availability.

8-12 user/participants

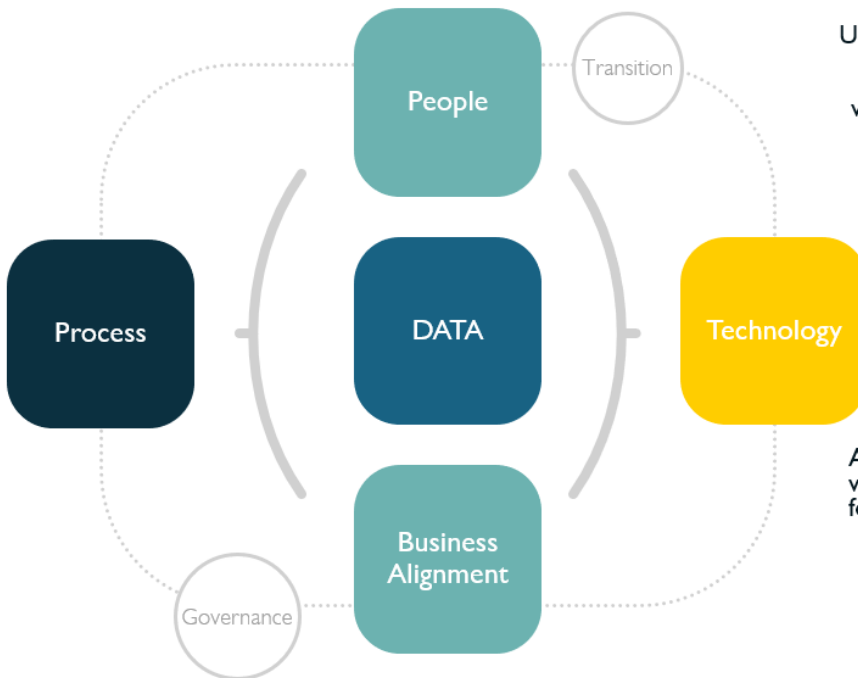

*Are your BI projects keeping pace with business innovation?  
Is BI merely a report-producing factory?*

*Data-driven organisations are using data as the fuel to drive innovation and stay ahead in continually evolving markets.*

Recent work has highlighted interventions such as:

- Data literacy competency improvement
- Team structure and comms
- Data modelling guidance
- Software recommendations
- Architecture design
- Data governance insights

Using our multi-disciplinary framework, **iOCO Data & Analytics** will uncover potential roadblocks and set you on a focussed path.

After running discovery workshops, we produce bespoke output geared for your environment:

- AS IS analysis
- TO BE framework
- Roadmap of priorities
