

Solve for COVID-19 Together

Workforce Productivity Management Solution overview

HOW COVID-19 WILL CHANGE THE WAY WE WORK

- 1 Workforce geographical arrangement is changing
- 2 Most organisations have responded by allowing their workforce to work remotely
- 3 Increased complexity and risk to organisations as they work to sustain continuity and productivity

WHAT IS REMOTE WORKFORCE MANAGEMENT?

iOCO Remote Workforce Management Service combines all the data points and analytics from workspaces to instil measures of control, governance and confidence for a productive workforce.

Remote Workforce Management Service is centred around:

Analytics on productivity

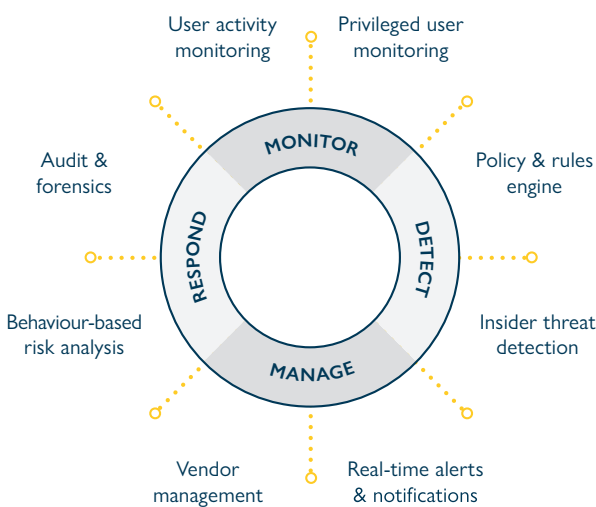

Productivity reporting

Productivity trending

REMOTE WORKFORCE MANAGEMENT
