

# Secure e-signatures for digital transformation

## Solving for COVID-19, Together.

### Solution overview

As businesses increasingly look to reduce costly paper-based processes, e-signing is essential for end-to-end digitization across your organisation. By moving from wet-ink to electronic signatures, you can remove the final roadblock to elimination of paper and achieve full digital transformation - reducing operational costs and transforming the customer experience. Kofax Business Efficiency, Mobility, Security and Business Continuity are all-approach angles for digital signatures for both presentation and demo.

### BUSINESS BENEFITS

Cuts the time needed to obtain signatures from days to minutes with multiple scenarios for e-signing

Helps mitigate your risk of external or internal fraud attempts through additional layers of trust

Leverages multi-factor authentication

Digital certificates and signature biometrics
